Thank you for choosing the **EVILUSIONS** Machine Gun Air Cannon Controller Box.

OPERATING INSTRUCTIONS

The Machine Gun Air Cannon Controller Box is designed to continuously turn on and off 110v solenoid valves. The internal relay is rated at 1 amps, and you should never switch over that.

- 1) To set up, plug valve to be cycled on and off into female outlet lead, and plug male outlet lead into wall outlet, surge protector, or extension cord. As soon as male plug plugged in power will begin to cycle on and off.
- 2) One dial controls the amount of time the power is turned off in each cycle the other dial controls the amount of time the power is turned on in each cycle.
- 3) Timing is controllable from 1/20th of a second up to 1 second. Play with your timing until the desired effect is achieved.
