

170 Traymore Blvd.
Eastlake, OH 44095

Thank you for choosing the **EVILUSIONS** Adjustable Lamp Flickerer.

OPERATING INSTRUCTIONS

The Adjustable Lamp Flickerer is designed to give a random, brightness adjustable flicker pattern to incandescent light bulbs. Up to 800 watts worth of lighting.

- 1) To set up, just plug in the male plug to a surge protector, wall outlet, or extension cord.
- 2) Plug your lights into the female plug lead.
- 3) To brighten your lights, press and hold the red button. To dim your lights, press and hold the black button. There are approximately 16 brightness levels. By pressing the red button once, full brightness will be achieved. By pressing the black button once, full dimness (off) will be achieved.

DISCLAIMER! Evilusions LLC is not to be held liable for injuries, death, or property damage caused by the improper use of or inability to use this product, misuse of this product for purposes that it is not intended, or complete lack of common sense.

WARNING! This product is not designed to be used in a wet environment. If used outside, or in a damp environment all precautions should be made to prevent it from getting wet. Permanent damage to the product, persons, or property can occur.
