

# www.EVILUSIONS.com

170 Traymore Blvd. Eastlake, OH 44095 Thank you for choosing the **EVILUSIONS** Thunder lightning box.

## OPERATING INSTRUCTIONS

1) Run speaker wires from left channel of speaker output on stereo into the inputs on the Thunder/Lightning Box, and run speaker wires from right channel of speaker output on stereo to speakers.

2) Plug in lights (up to 500WATTS). We recommend a 500WATT Daylight Photo Flood Bulb-available at any local photo supply shop or contact us if you have troubles and we will obtain one for you. Another great alternative is a dimmable led light bulb from Minions Web.

3) Plug the Thunder/Lightning Box into a wall outlet.

4) Adjust sensitivity knob (Counter Clockwise for lower sensitivity-Clockwise for higher sensitivity) until desired effect is achieved.

**DISCLAIMER!** Evilusions LLC is not to be held liable for injuries, death, or property damage caused by the improper use of or inability to use this product, misuse of this product for purposes that it is not intended, or complete lack of common sense.

**WARNING!** This product is not designed to be used in a wet environment. If used outside, or in a damp environment all precautions should be made to prevent it from getting wet. Permanent damage to the product, persons, or property can occur.
